

**Tools to sell along with Paint, Wallpaper,  
Vinyl, Linoleum,  
Carpeting and  
Drywall.**

**HYDE**

**TOOLS**

HYDE MANUFACTURING COMPANY, SOUTHBRIDGE, MASSACHUSETTS, U.S.A. 01550

# **Why HYDE TOOLS increase paint department profits.**

A wide variety of Hyde Tools stocked and displayed in a Paint Department are as important to the sale of paint as a good selection of brushes and paint rollers. Paint and decorative materials shoppers will buy putty knives, scrapers, linoleum knives, and other fix-up paint-up tools illustrated in this catalog for easier, faster and better results. Hyde high quality tools carry a high margin of profit for a small investment of space in the Paint Department like hand tools in the Hardware Department.

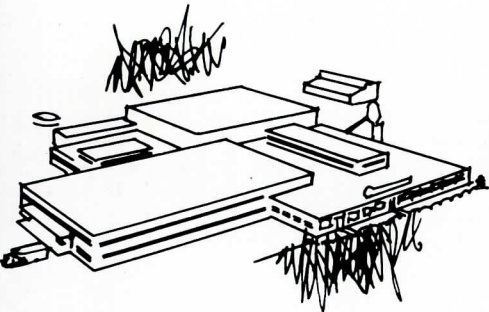

## **HYDE TOOLS are promoted at the point-of-sale to be seen, handled and bought.**

Hyde Tools are handsome for eye, buy and use appeal. The outstanding long service quality of each Hyde Tool is brought to the attention of the shopper by colorful informative individual card packaging. The packaging is designed so that the handle of each tool may be held by the shopper for close hand inspection. Product knowledge on the back of each card shows the many uses of each tool.

## **HYDE TOOLS high profit salesmakers to home owners, painters-decorators, crafts people, hobbyists and boat owners.**

The sale and use of Hyde Tools is constant for Hyde Tools are used to help keep up appearances and maintain homes, boats, camps, commercial buildings and plants. Painting and decorating is now considered an important part of the growing leisure time market.

## **HYDE known for quality since 1875.**

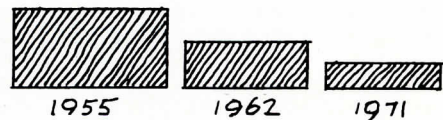

Hyde makes quality products to assure the user of better results. Hyde processes the best grades of steel hardened and tempered to perfection for the various uses intended for each tool. Since Hyde manufactures knives and cutting tools for industry this experience and know-how is used to make the finest tools for painters, decorators and home owners.

## **HYDE packaging progress benefits retailers**

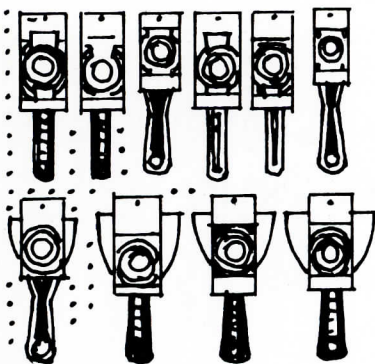

To help the retailer fight the space squeeze on the sales floor, Hyde has reduced the size of its card packaging of major lines twice during the past few years. Actually, Hyde card packaging has been reduced more than 50% over the original cards introduced in 1955. The smaller packages are smarter in appearance besides taking much less space on store fixtures. The small size, compact, space saving cards allow the handles of tools to be free of cardboard so shoppers can grasp the tools as they are intended for use.

Smaller card packaging obviously means smaller stock boxes. Up to 78% reduction of Hyde stock boxes since 1955 to free more stock space on warehouse and back room shelves.

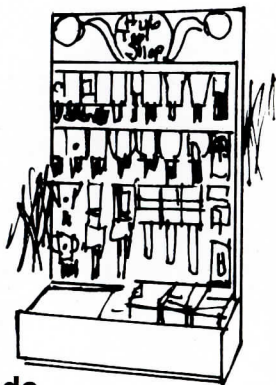

### **HYDE compact mini packaging for more sales per square foot and increased turnover**

Hyde patented compact packaging takes less space on display boards thereby offering the display of more tools for increased sales and profits. Hyde compact packaging is approved by the National Retail Hardware Association.

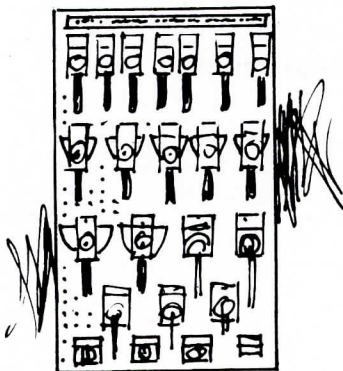

### **HYDE TOOL SHOPS for every size store and paint department**

Hyde has the greatest variety of point of sale merchandisers each identified as a Hyde Tool Shop.

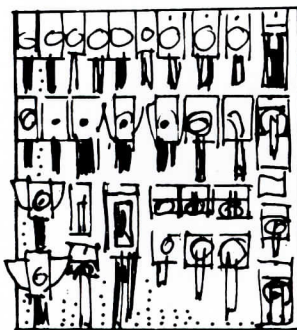

### **HYDE factory made tool shops**

Hyde produces and provides tool assortments on racks, towers and floor fixtures where tools are identified and programmed for greater impulse sales and profits. See Hyde Tool Shop Catalog featuring these factory made Hyde Tool Shops.

### **HYDE customized boards for store walls**

Hyde will provide yellow punch board with 1/2" on center holes to fasten to the store's back board to make a Hyde Wall Tool Shop. The boards are available in various sizes and have Target Tabs positioned on the boards to make a tight arrangement of basic stocks of Hyde Tools. Included with the boards are 8" hooks and identification strips. The boards are given at no charge with specified tool assortments. See customized Hyde Tool Shop folder.

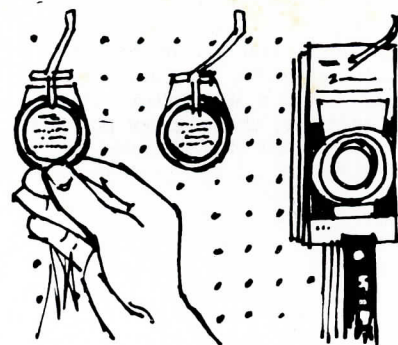

### **HYDE TOOL SHOP assortments for store punch boards**

Successful tool assortments that are displayed on Hyde factory made store fixtures are available for stores who do not permit the use of floor stands or tool towers. Hyde provides for these tool assortments Target Tabs, hooks, identification strips and layouts to program the tools. See Hyde Tool Shop Catalog.

### **HYDE merchandising awards**

Hyde has earned many national awards for packaging and merchandising including the Seal of Approval of the National Retail Hardware Association for space saving compact packaging and for the No. 500X factory made Hyde Tool Shop floor stand, plus Awards of Excellence from Building Supply News for retail sales aids.

### **HYDE target tabs inventory control sticker system**

Hyde Target Tabs are attractive red, white and blue labels measuring 2" in diameter with pressure sensitive backs, easy to apply and remove. There is a Target Tab for each popular packaged Hyde tool or product which is placed below each tool hook. The identification and numbers of the tools printed on each Target Tab are easy to read reminders to order stock and keep hooks filled for continuous sales and profits. Target Tabs are positioned on every Hyde factory made fixture and are available for programmed assortment of tools and customized boards.

### **HYDE how-to-folders for store shoppers**

The new "How To Do It With Hyde Tools" folder features product knowledge and illustrations on how to use Hyde Tools to prepare the surfaces. A full range of Hyde fix-up paint-up tools is also illustrated in this folder. The attractive and informative folder folds to 2 3/4" x 6". 50 folders are provided at no charge in rack stock box to be hung from a hook on Hyde factory made and Hyde Tool Shop perforated display boards. The rack stock box with folders illustrated on this page are packed with each Hyde factory made Hyde Tool Shop and planned programmed Hyde Tool Shop Assortments. Each rack box contains a self mailer card so dealer may replenish his stock of folders in a fresh stock box.

# ELECTRIC PAINT REMOVERS

## Putty Softeners

**HYDE**  
**TOOLS**

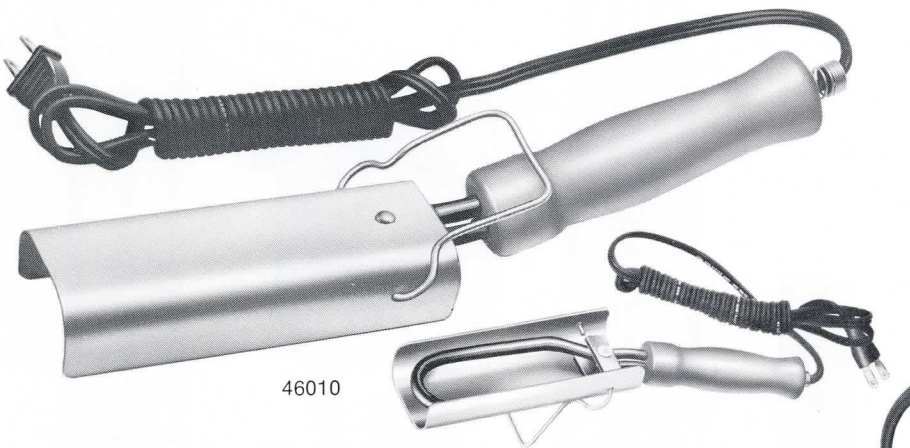

46060

**No. 46060. HYDELECTRIC.** This electric paint remover, to soften paint on large surfaces, is recommended to boat owners, home owners, painters and factory maintenance men. The foolproof 1000 watt heating element is the same as installed in electric ranges operating on 115 Volts A.C. or D.C. current. The Hydelectric removes old "alligatored" paint no matter the number of coats. Stainless steel shield reflects maximum amount of heat. Wire frame supports unit while turned on and not in use. Rugged construction with cool hardwood handle and 6' of heavy duty cord. Tool measures 13 $\frac{3}{4}$ " long, handle is 5 $\frac{1}{4}$ " long, heating element and shield 3 $\frac{1}{4}$ " wide and 7 $\frac{1}{4}$ " long. Not recommended for removing varnish. Hang-up rack visual packaging.

New No.	Old No.	Description	Pack	Wt.
46060	HE-100	Paint Remover	3	5 $\frac{3}{4}$

**No. 46010. HYDELECTRIC JR.** Similar to HE 100 except smaller in size and lower in wattage to soften paint on window sills, doors, trim, moldings and other small painted surfaces. A lightweight, efficient, electric paint remover with tubular electric range type heating element of 350 Watts—115 Volts in a stainless steel shielding. Tool measures 11 $\frac{1}{4}$ " long, heat shield with element 2 $\frac{1}{4}$ " wide and 5 $\frac{3}{4}$ " long. Not recommended for removing varnish. Hang-up rack visual packaging.

New No.	Old No.	Description	Pack	Wt.
46010	HE-95	Paint Remover	6	7

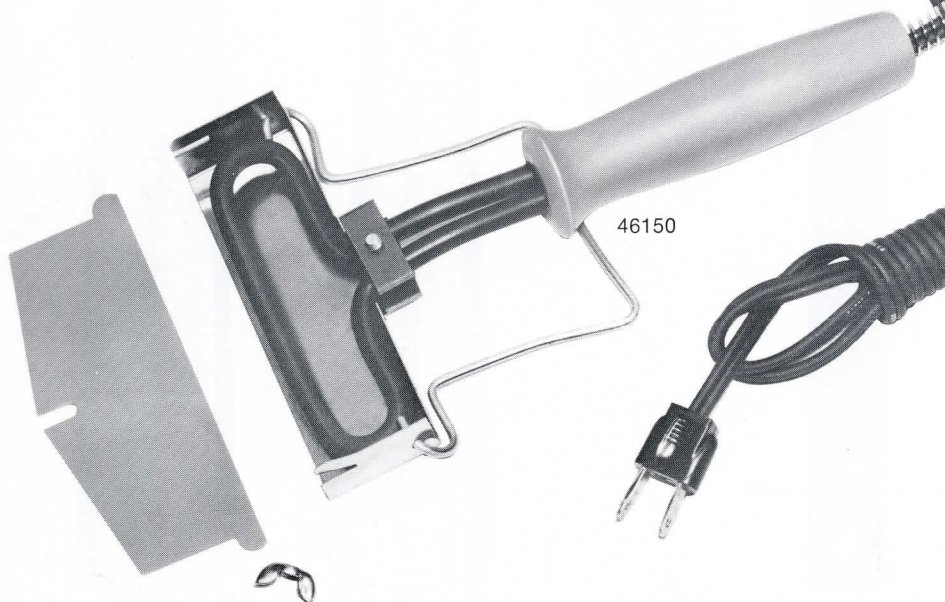

46010

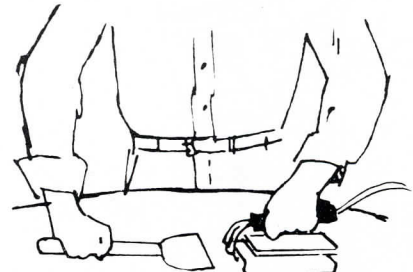

**No. 46150. HYDELECTRIC PAINT AND PUTTY SOFTENER.** This all electric tool removes old, hard putty on window sash with special attachment, and also removes paint with the same type of electric heating element only smaller than the No. 46060 HYDELECTRIC Paint Remover. The 350 Watt heating element, 115 Volts A.C. or D.C. current, with stainless steel shield measures 1 $\frac{1}{2}$ " x 5 $\frac{1}{4}$ ". Overall tool size 8 $\frac{3}{4}$ " long. Wire frame support on handle to rest tool when on and not in use.

The tool is packaged with the putty softener shield in place; the shield is removed when the tool is used to remove paint. Not recommended for removing varnish.

New No.	Old No.	Description	Pack	Wt.
46150	HE-200	Softener	3	3 $\frac{1}{4}$

46150

**No. 46260. HOME OWNER PUTTY SOFT-ENER.** Here is a small electric putty softener to remove old putty from window sash. Best grade tubular heater similar to element in an electric range. Stainless steel shield shaped to "get the corners," both right and left without turning. Tool is 12" long, heating element in shield 6" x 2½", connected to a 5¼" long hardwood handle. 350 watts—315 volts. Packaged in attractive red, white and blue box to hang on rack.

New No.	Description	Pack	Wt.
46260	Softener	2	2

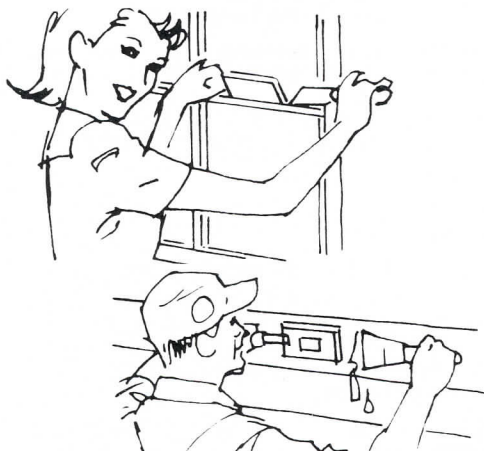

**No. 46210. PROFESSIONAL PUTTY SOFT-ENER.** The hardest putty melts fast for clean, easy removal. Heater is tubular metal. Rating of 750 Watts, 115 Volts AC/DC current. Encased in stainless steel formed to reflect heat down. Hardwood comfortable grip handle with heavy duty cord.

New No.	Old No.	Description	Pack	Wt.
46210	HE-300	Softener	1	1½

**No. 46110. SUPER HYDELECTRIC.** For painters and for rental to home and boat owners. Electric paint remover combination with new super Hydelectric paint remover. 12000 Bent paint remover scraper both packed in 8" x 11" x 5½" steel carrying case with handle and snap lock. New super Hydelectric with heating element of 1250 Watts operates off regular 115 AC/DC current. Fastest paint remover on the market. Heating element the same as an electric range. Stainless-steel shield with an additional, double, air space baffle plate below thermoplastic heat and shock proof handle. Unit has 6' cord. Remover measures 4" x 9" x 2". Case complete packed in corrugated shipping container. Not recommended for removing varnish.

**COMPACT CUSTOMIZED HYDE TOOL DISPLAY BOARDS SELL TOOLS FROM SMALL SPACE IN PAINT DEPARTMENTS TO INCREASE SALES AND PROFITS.** We know that shoppers in paint departments buy Hyde fix-up paint-up tools when displayed and stocked with paint brushes and rollers. Hyde tools make a complete paint department for a higher margin of profit.

Every paint shopper is a potential customer for one or more tools. Why? Hyde tools are used to properly prepare the surface for painting and decorating. Hyde promotes tools to shoppers with attractive mini-packaging arrangements on small programmed panels that take only a minimum amount of space. The sale of Hyde tools to paint customers will increase the dollar volume of each unit sale.

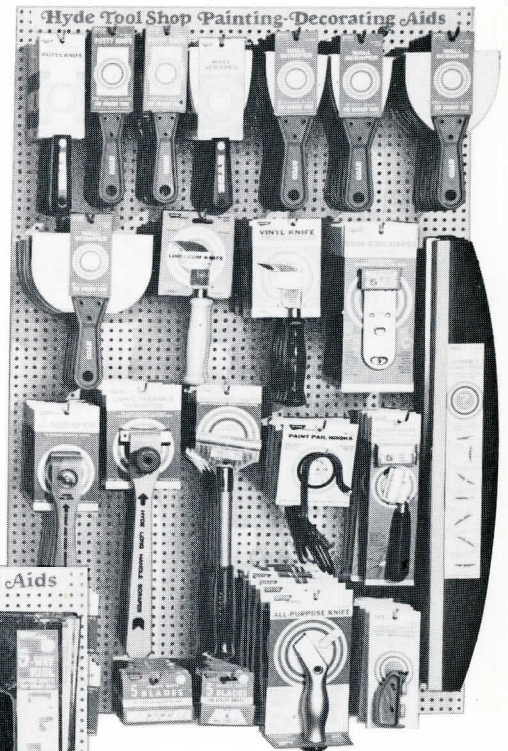

Tool assortments are programmed on 1/2" center yellow punch board with Target Tab stickers for placement, identification and inventory control of tools to be stocked. Boards have narrow Hyde Tool Shop strip at top and include 8" long hooks to hang tools. Boards lock into store's regular wall punch board fixtures with lock nut washers.

Write for information on Hyde's new customized space saving tool service panels for paint departments.
